Film

poco a poco (dt.: „nach und nach“)

Resolution: HDTV
Length: 64:30min
Year: 2010
Location: Mexiko

Preise: Kunstpreis 2010 der Arbeiterkammer ÖÖ

Der Dokumentarfilm „**poco a poco**“ (dt.: nach und nach) von Doris Muskar und Alexander Vittorio Papsch begleitet MenschenrechtsbeobachterInnen auf ihren Weg in zapatistische Gemeinden in Chiapas (Mexiko) und zeigt ihre Aufgaben, Erlebnisse und Schwierigkeiten während ihres dortigen Aufenthaltes. Durch die Menschen vor Ort erfahren wir mehr über die zapatistische Bewegung und deren Kampf, aber auch über die Menschenrechtsbeobachtung selbst und den Konflikt in Chiapas. Dieser seit Jahr-hunderten bestehende Konflikt zwischen indigener und nicht-indigener Bevölkerung verstärkt sich noch durch kapitalistisches Denken, welches keine Rücksicht auf Menschlichkeit nimmt.

Music Video

DEALER „DIG A HOLE“

Resolution: HDV
Length: 4:54min
Year: 2010
Location: Austria

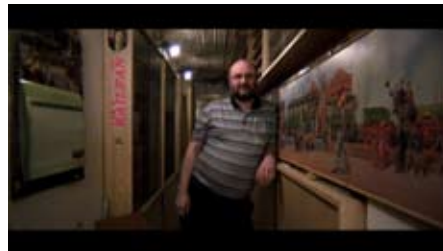

Das Musikvideo der Band „Dealer“ mit dem Audiotrack „Dig A Hole“ war eine neue Herausforderung bei der eine neue Idee des „Story tellings“ realisiert wurde. Drei Videos, aufgenommen an unterschiedlichen Orten zu unterschiedlichen Zeiten bilden im Zusammenhang eine interaktive Geschichte. Je öfter man dieses Musikvideo schaut, desto mehr Details und Zusammenhänge wird der Betrachter finden.

Film

Schachteln

Resolution: HDTV
Length: 14:19min
Year: 2010
Location: Austria

In circa 14 Minuten führt der pensionierte Eisenbahner und Modelleisenbahner durch sein Haus. Anekdoten und skurrile Räume schildern sein Lebenswerk. Dargestellt wird eine bis zur letzten Konsequenz alles geopfert Obsession, eine schon fast überzeichneten Leidenschaft, die sich in alle privaten wie beruflichen Bereiche einschleicht.
Regie: Leonhard Müllner

Film

Das Westbahnprojekt

Resolution: HDTV
Length: 1:43min
Year: 2010
Location: Austria

Anhand einer Modelleisenbahnleitung planen Räuber ein spektakuläres Projekt: Mitte der 1980er Jahre kommt es in Österreich zu einem Überfall eines Posteisenbahnzuges. Der Stopmotionfilm erzählt davon im H01-Massstab.
Regie: Leonhard Müllner

Film

Aotearoa Neuseeland

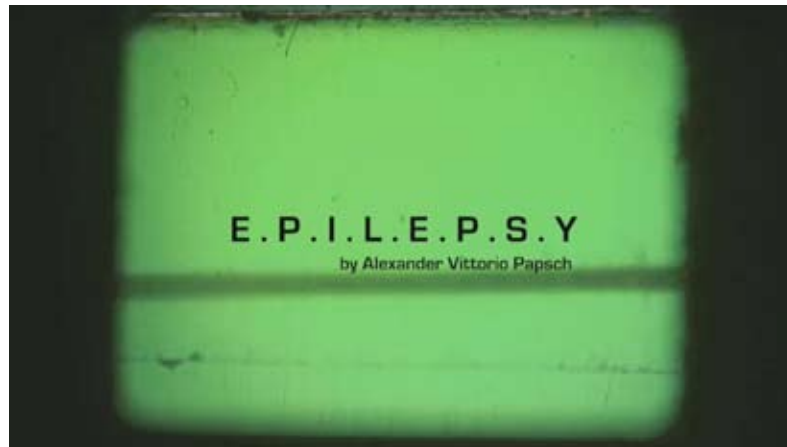

Resolution: HDTV
Length: 46:40min
Year: 2008
Location: New Zealand

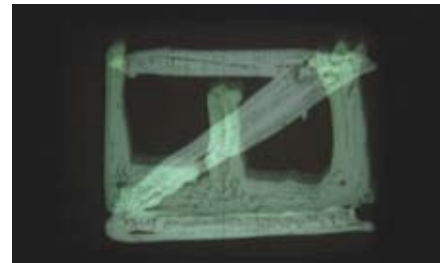

Der „Aotearoa“ Neuseeland-Dokumentarfilm ist eine Reise durch erstaunliche Landschaften, durch thermische Regionen, zu Stränden mit bezaubernder Tier- und Pflanzenwelt. Der Genuss des Filmes (ver-)führen den Betrachter in das Kiwiland auf der „anderen“ Seite der Welt.

Film

E.P.I.L.E.P.S.Y

Resolution: HDTV
Length: 01:48min
Year: 2007
Location: Austria

E.P.I.L.E.P.S.Y was made out of 16mm found footage. No frame is like the other and more than 1000 cuts are in this short movie. Your brain will not even recognise the fast changes of this pictures. Your subconscious will see much more than you think to see. That is nothing for epileptic people. A one minute version is sent in to the „The One Minute Festival“ in Beijing and Brussels.

Video

FreiWillig

Resolution: HDV
Length: 04:33min
Year: May 2008
Location: Austria

FreiWillig was made for the film festival „Instant 36“. This year's topic was: „Was it by accident or a one way“ and a „safety pin“ had to be included. For this event we have activated our film teams in Taiwan, New Zealand, Spain, Finland and on the Bermudas. The film is based on a real story. Two people, a wedding and two trains of thoughts. She imagines her ideal future. He harks back and his thoughts uncover why they get married.

Video

PFIJU FLASHBACK

Resolution: PAL
Length: 250:00min
Year: May 2008
Location: Austria

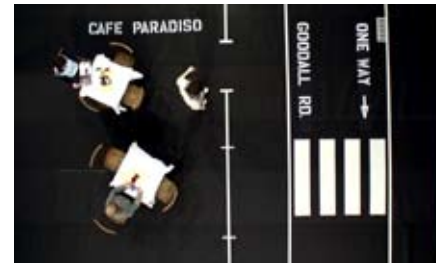

Pfiju stands for “Pfingst Jugend Treffen” and it’s a big Christian conference. For this conference we made a 250 minute DVD with all important event points. Included is a Flashback video which brought the audience to scream. The DVD pressed at Sony and sold to the public.

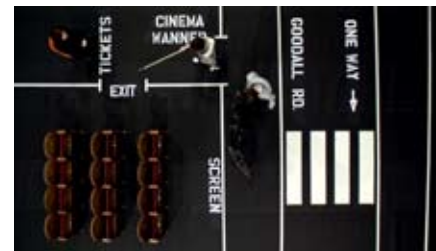

Video

ONE WAY

Resolution: HDV
Length: 08:36min
Year: Feb 2008
Location: Austria

One Way was made together with Doris Musikar. The whole story is told from the birds view. A girl's life is dramatically changed through an accident. The cuaser absonds after the accident but his conscience brings him back to see the girl. The girl finds a way of positive thinking. Life is not over so she strengthens herself for her different life.

Video

GAP

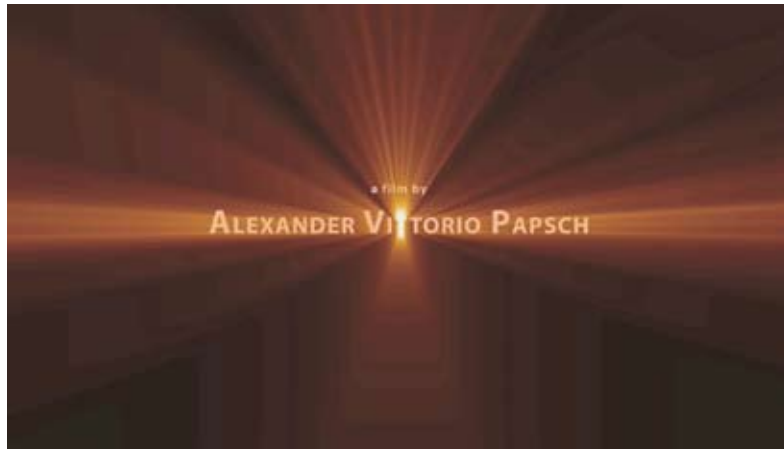

Resolution: HDV
Length: 06:18min
Year: Dec. 2007
Location: Taiwan

The escalation of our community in its materialism world is shown in this test film. The script was written by a true story and won the first prize for the best film script of the competition in Tainan in Taiwan. Through this the idea came up to produce this film on 35mm footage. The movie is known through its strong acting and message.

Video

NZ Trailer I and II

Resolution: HDV
Length: 01:37min
Year: Oct. 2007
Location: Taiwan

Two trailers for the “**Aotearoa Neuseeland**”-Project where edited and are now online at **www.neuseeland-film.com** These trailers represent the movie and give the public an idea how the movie looks at the end. It is to advertise the project to reach more people and ignite them to see this movie in the cinemas in 2008.

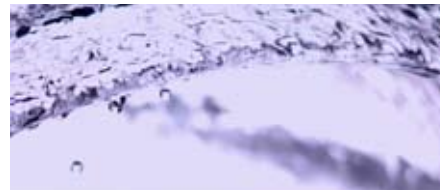

Video

UNDERNEATH

Resolution: HDV
Length: 03:10min
Year: June 2007
Location: Austria

Underneath is an experimental film which focuses on problems in relationships. GUILT, anger, fear and hate will be covered underneath a water film when you do not talk to your partner and tell him/her the truth. The image composition shows you the beauty above and the fear underneath.

Video

ROUTING DUCK

Resolution: HDTV
Length: 07:40min
Year: April 2007
Location: Austria

The routing duck is a movie with animals. Through handicaps for the ducks the movie records the results. This experiment is to find out which duck the routing duck is. After 12 successful experiments you know the winner. The make up is like a live event and is moderated live in German.

Video

THE BARK BEETLE

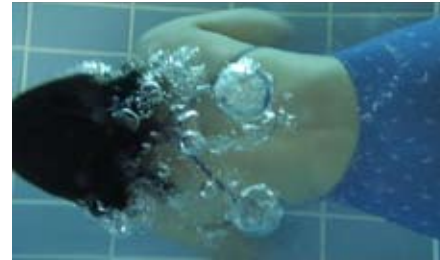

Resolution: HDTV
Length: 03:30min
Year: 2007
Location: Austria

Bark beetle is a hard edited movie where many trees are cut down in a short time. This project was actually made for the lecture "Live Montage" of the University of Art in Upper Austria. This movie will be shown at a big event as a remixed visual graphic.

Video

SECOND LAST MAN

Resolution: PAL
Length: 07:00min
Year: 2007
Location: Austria

A man in a figure of a pool attendant alone in his swimming bath. The room is a micro cosmos, locked from the rest of the world. Nobody knows how long he is locked in here or how long we follow him during his accomplishment. This film was made during 36 hours at the Instant 36 film festival and is sent in to other film festivals in Europe.

This film is the Winner of the Instant36 filmfestival 2007!

Video

RASENMAHN

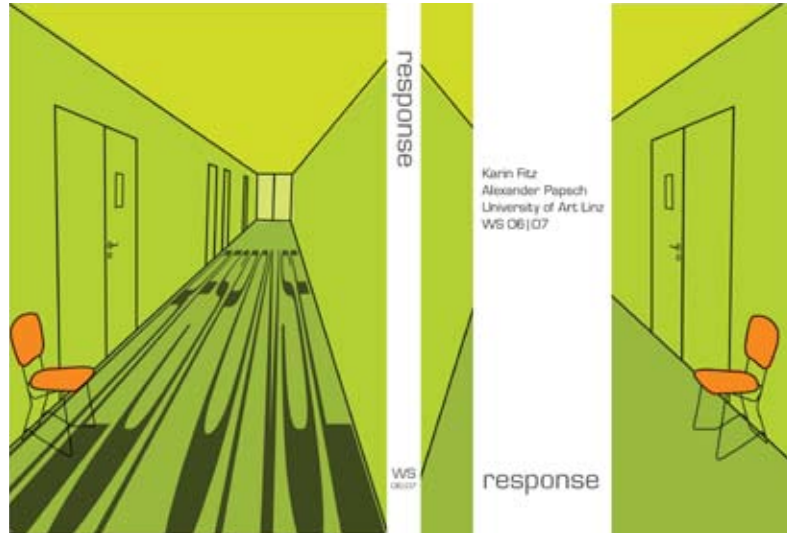

Resolution: HDTV
Length: 03:13min
Year: 2007
Location: Austria

This **stop motion** film is a sweet story about a lawn mower, garden gnomes and a motor saw. The movie was synchronised to a German song which is called “Rasenmahn” and means mowing the lawn. It is a funny story which shows you how garden gnomes can cut down trees and how a lawn mower hate crum-pets.

Video

RESPONSE

Resolution: PAL
Length: 04:35min
Year: 2007
Location: Austria

Response happens after an answer but what answer is it? This movie shows you how long for minutes can be if you have to wait for an answer which is important. Is he waiting for the mark of his exam or is he waits of the answer if he has AIDS? Showing the nerviness was the focus on this short film.

Video

THE OTHER CINEMA

HD
03:54min
2007
Austria

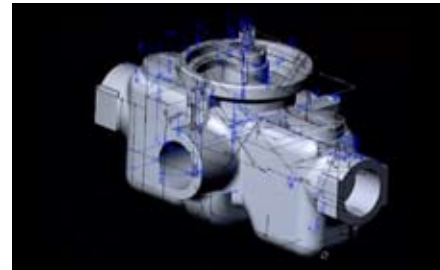

The other cinema has been produced for the University of Arts in time based media in Austria. Brake the barrier of film making rules was the theme on this movie. Telling you a story the other way around was the main idea on which this movie is based on. A film which you have to watch several times to realise everything what happens in this short time.

Video

GREENS TAPWARE

Resolution: PAL
Length: 25:00min
Year: 2006
Location: New Zealand

The image film shows the company and its high quality products. The consumer gets a tour through every department. You can have a look which manufacturing steps a tap goes through from the idea to the final product.

Video

NZPROUD.COM

Resolution: PAL
Length: 5x15:00min
Year: 2006
Location: New Zealand

NZProud.com was a 550.000NZ\$ project and was filmed for the entertainment program of the Air New Zealand. All together five different promotional movies from five different New Zealand districts about the country, its attractions and famous sightseeing's were made. I have worked for this big project as a sound- and cameraman. If you like to see more, have a long flight with Air New Zealand and choose this program out of 200 different channels.

Video

THE FALLEN

Resolution: PAL
Length: 05:15min
Year: 2006
Location: Austria

The Fallen is showing you the way of a schizophrenic man in his own world. A really complex story is told in only five minutes. But at the end this story seems to drift in a new world of thinking. The camera movements were realized with camera cranes and a steady cam.

Video

HEART MATTERS

PAL
06:59min
2006
New Zealand

Heart Matters was made at the 48hours film competition in New Zealand and got distinguished at 48hours film competition in New Zealand and at filmriss in Austria in 2006. Heart Matters is a love story with three different love stories but only one love will be the right love..This movie is on tour through the cinemas in Austria.

Video

THE HOITLOSEN

Resolution: PAL
Length: 14:50min
Year: 2005
Location: Austria

The Hoitlosen film was made for the biker group „Die Hoitlosen“ from Lower Austria for commercial advertisement use. The whole film shows a motorbike blessing in the year 2004. On this day about sixty motor bikers were coming in front of the church of Maiersdorf at the national park from the „Hohen Wand“. Biker feelings may come up during watching this short film...

Resolution: HDTV
Length: 05:11min
Year: 2003
Location: Austria

Resolution: HDTV
Length: 01:35min
Year: 2007
Location: Austria

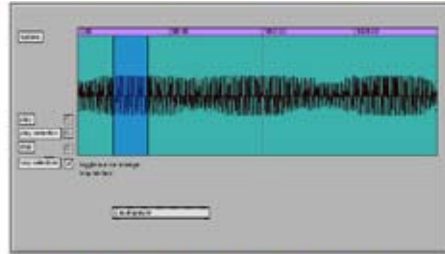

Three little piggies is a story about three little pigs after leaving there home...

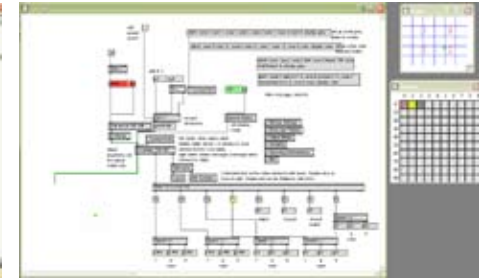

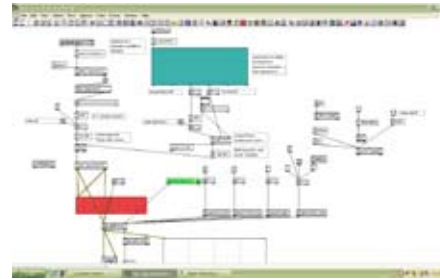

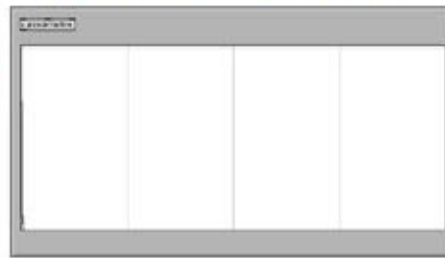

The Neighbors is a composition with 57 soundtracks. Every time when a light is switched on or of or a window is opened or closed a different sample or midi sound will be started. It depends in which floor and which row this action happens.

Audio

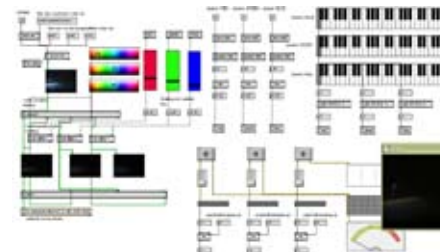

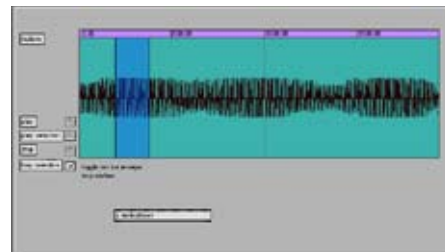

KEEP ON SMILING

KEEP SMILING!

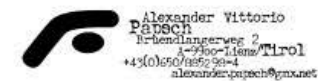

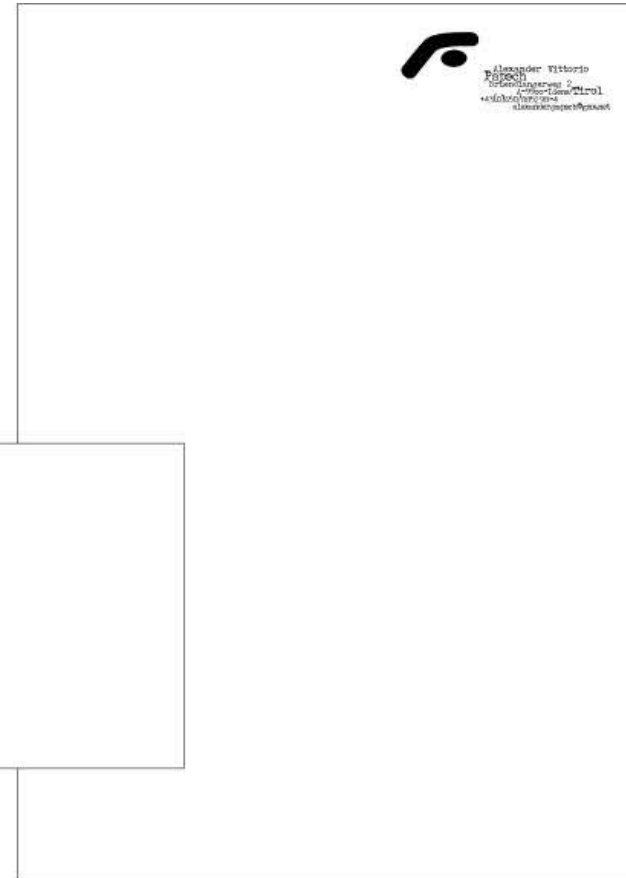

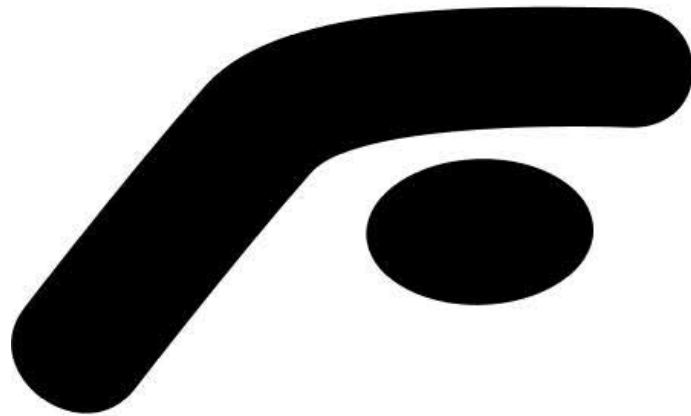

Year: June 2007
Location: Austria

“Keep on Smiling” was programmed in MAX/MSP with CV-Plugins. Your mouth is tracked with a digital camera. Every time you open your mouth, a sound with a granularsynthesis will be generated. The volume will be generated how wide your mouth can be opened. Simply you do not have to sing anymore to create your won opera!

Notepaper

Photography

HIGH DYNAMIC RANGE IMAGES

Year: 2006

Location: New Zealand

A special HDRI technology makes pictures like these possible. For one picture I need five records with five different shutter speeds. The result is a hyper natural picture.

Photography

PANORAMA

Year: 2006

Location: New Zealand

With a special stitch technique I combine about twenty pictures to one panorama picture. Much more pictures are on my website www.alexdream.net
